

B-3079 - B-3086

1820-1835

2-30 Henrietta St. (North side)

Baltimore, Md.

Private access

The group of two and a half story, two bay wide late Federal style brick houses that line this side of Henrietta St. were built by various local carpenters and brickmakers in the years between 1820 and 1835, the earliest houses being those to the west, closest to S. Charles St. 2-6 Henrietta St. were built contemporaneously with 821-829 S. Charles St. by the same builder, John Cator. 22-24 Henrietta St. is an unusual two story, two bay wide brick house set back from the street with the gable roof set perpendicular to the street instead of parallel to it. The house extends back to a depth of five bays. 26-30 Henrietta St. have been enlarged and are now all three stories in height with shed roofs and bracketed cornices.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This pair of 2 1/2 story brick houses with gable roof and a single dormer window apiece was built more or less contemporaneously with a group of similar houses at 821-829 S. Charles St. 2 and 6 Henrietta St. have been covered with formstone and the first floor fenestration pattern of 4 Henrietta has been altered. The original appearance of the facades, however, was originally close to that of 823-825 S. Charles St. See under 821-825 S. Charles St. for details.

The houses are 2 1/2 stories in height, 12' wide, and extend back on lots 59'9" deep. The only original brickwork remaining exposed is at 4 Henrietta St and it is running bond. The first floor of 4 Henrietta St., however, has been resurfaced with modern brickwork, and 2 and 6 Henrietta St. have been covered with formstone. The steeply pitched gable roofs are covered with tarpaper and 6 Henrietta has its original wooden snow-guard. Each house has a double, rectangular chimney located at its eastern end. A simple brick cornice extends continuously across the facades.

Only the second floor window openings of 4 Henrietta St. retain their original flat wood lintels and sills. The lintels and sills of 2 and 6 Henrietta St. have been hidden under the formstone covering, and the first floor openings of 4 Henrietta St. have been altered, the original window being replaced by a small modern window. No original sash remains. All of the window openings, including the dormer windows, are filled with modern 1/1 sash. The modern panel doors of 2 and 6 Henrietta St. are surmounted by single light transoms. The transom area of 4 Henrietta St. has been filled in by the new brickwork. The houses sit on fairly high basements, the entrances being reached by flights of three wide stone steps.
